

There's more to life at...

Dear Friends of Laurel View Village,

I hope this letter finds you and your family well. For many, this Christmas season will look different yet the hope this time of year brings will remain the same. As we approach this holiday season, we are filled with gratitude. We are grateful for our staff who have risen above so many obstacles this year as they continue to care for residents with the love, compassion, and skill that we are known for. We are grateful for the outpouring of support and good wishes from our neighbors, residents, and families. Most of all we are grateful that we have been a community that values giving as a way of life.

As many of you know our facility is well regarded for the excellent care shown to our residents, but we strive to take care a step further by providing a warm home like atmosphere to ease the uncertainty that often follows a health crises. Laurel View Village has always believed in nursing the mental as well as the physical needs of our residents. In keeping with this philosophy, we have decided it would be a wonderful time to update parts of our health care unit and have already begun this process.

Many of us redecorate our homes and begin with deciding colors and style. In our health care center, we are excited to imagine what new paint and furniture could do to raise spirits, but the decisions we make are influenced not by fashion but by functionality. These considerations are costly yet vital to safety and wellbeing. With all this in mind we are asking for your help as we continue to provide the best all-around care. **Will you contribute to a warmer and more home like atmosphere for our healthcare residents to enjoy?**

In addition to the above upgrades we are hoping to provide another feature we feel will greatly benefit resident life. Many cannot venture off campus and a "smart" television can help bring life and entertainment directly to them. It can also be used to broadcast our internal activities directly to a resident who may, due to health reasons not able to join his or her peers in any other way. Because of this, we are hoping to install 55 new 32-inch televisions and 3 larger ones for our residents to enjoy.

Our total projected need for this project is roughly \$30,000. We have already budgeted for additional upgrades such as paint and new carpets and plan to look for additional partnerships to provide further funding. We welcome any support you are moved to provide and thank you for your continued support of Laurel View Village. Thank you for the direct impact you make in the day to day life of our community. May this season fill you with love, joy, and peace.
