

Dear Friends of Laurel View Village,

The past year has again presented its share of challenges but with a strong faith we continue to move forward. Although the battle against COVID 19 continues to weigh on both residents and staff we are hopeful that we are moving towards a bright future.

If you recall, last year’s annual appeal focused on a refresh of our health care center and creating a more home like atmosphere for some our most vulnerable residents. I would like to share what your generous support has allowed us to accomplish.

The funding raised last year allowed us to purchase and install ten smart televisions for our residents in healthcare . We were able to refresh rooms by purchasing new curtains, bed linens and comforters. We added five new recliners and additional furniture in our common areas. In 2022 we will paint walls and install new carpet through the hallway and in each resident’s room. Last June, with the help of volunteers, we were also able to brighten up the enclosed outdoor area for The Arbor. Together we planted flowers, painted and power washed the area. We purchased new outdoor furniture to make the area inviting and comfortable and were delighted that residents and families began using it more than ever before. Your support, along with a generous grant from Lee Initiatives has allowed us to purchase a new decorative fence to replace the current chain link fence turning the area into pleasant, inviting space. Installation is scheduled for the spring of 2022 and we are thankful for all your help in completing this project.

Current Personal Care outdoor area

Our health care center is a vital part of our campus but equally important to us is the wellbeing of our personal care residents. For that reason, it seems appropriate to appeal to you on their behalf and focus this year’s Christmas letter on improvements to our Personal Care area. The past year has been especially hard. Many are used to being able to leave campus to gather with friends and family, attend church services and other outings. Yet COVID outbreaks have necessitated multiple closures and separations. **Will you consider joining us as we support these residents by enhancing the Personal Care Center at Laurel View Village?**

We have several ideas we would like to implement such as updating the dining room and other common areas. Our experiences working through the COVID pandemic has showed the need for expanded outdoor spaces, where residents can enjoy the fresh air while maintaining a safe distance from one another, when required. In our Personal Care area, we wish to extend our patio to create a place for more outdoor tables and chairs for residents to enjoy. We would love to create better opportunities for outdoor gatherings such as gardening on a safe raised bed, sports such as modified bocce ball or even a small personal care walking trail. Expanding outdoor spaces and improving indoor spaces seems like a wonderful way to let residents know they have not been forgotten and their wellbeing and happiness is top priority.

What better way to end the year, than to know our friends in Personal Care will continue to thrive in comfortable, safe environment. Please consider helping us by donating to this project. While you are planning your seasonal giving, consider making your gift using our electronic giving tools. Visit our website at www.laurelviewvillage.com. Giving on our website is easy and convenient . I pray the upcoming Christmas season is a time of blessings and renewal of spirit for you and your loved ones. Thank you for your generous support of the residents of Laurel View Village.

Sincerely,
Timothy Mock, CEO

2021 Annual Christmas Appeal

Please accept my gift of: \$250 \$125 \$75 My Best Gift: \$ _____

Name: _____ Email: _____

Checks should be made payable to ACSC and returned in the enclosed envelope.
